## TERMS

- ! Easifix kits can only be used in conjunction with 190x190x80mm glass blocks.
- ! Easifix is not a fire-rated installation system.
- ! Rods & Mortar and Easifix kits and installation systems cannot be integrated.
- ! Grout/mortar is not supplied with Easifix kits as standard. To use Colmef Vetromix glass block mortar as a grout, for panels 1x1 to 6x6 order 1x10kg bag, for larger panels up to 12x12, order 2x10kg bags.

- ! ESL2400 Easifix sleeve and timber is supplied as standard with each kit. If your client does not require this, inform us when ordering.
- ! Easifix minimum opening sizes shown include ESL2400 Easifix sleeve, used around the perimeter. If sleeve is not required, 17mm each side should be taken off the detailed sizes (34mm).
- ! For accessory fact sheets referring to fitting instructions are available in the A5 'Complete guide to glass blocks or can be downloaded from [www.glassblocks.co.uk/easifix](http://www.glassblocks.co.uk/easifix)

## KITS INCLUDE:

GBT CODE	DESCRIPTION
ESP2400	Easifix profile - 2.40m
ESP185	Easifix profile - 185mm
DC794	Dow Corning Silicon (clear)
MSSAB	Anchor brackets
TIM2400	Timber - 2.40m
ESL2400	Easifix sleeve - 2.40m
